Author: Bayrak, O.; Soylu, A.; Boztosun, I.

Short title: The relativistic treatment of spin-0 particles under the rotating Morse oscillator.

MR Number: 2759472

Primary classification: 81Q05

Secondary classification(s): 81Q80

Review text:

Six pages describing a sophomore-level (and, worse, already many times published) trivial exercise based on the exponential approximation (11) of the centrifugal term in the Klein-Gordon ODE (9). The carboncopying publication strategy proves, alas, unbelievably productive in our "publish or perish" world controlled by increasingly irresponsible referees of J. Math. Phys.
